

Northern Boxer Club

08/04/23

I would like to thank the Northern Boxer Club for my invite to judge their 73rd Championship Show. I do not usually address points before the start of my critique but feel I need to mention these following points.

To me eyes are a very important part of the boxer expression! So where have all these piggy eyes appeared from? Boxers are supposed to move with a driving action again very few showed this movement and one last point, dirty feetwhich there is certainly no excuse for!

MPD

1st Brought & Cairns Galicar Innahurry at Limubox Raw Brindle and white Puppy of 7 months. Inquisitive, expressive eyes, clean skull, padded muzzle, good size nostrils, wide mouth. Crested neck leading to sloping topline. Movement a bit untidy but this should tighten with time.

PD

1st Brown & Hutchings Winuwuk Walk It Talk It Upstanding Brindle and white male. Round bone, good depth of chest and substance. Firm neck, sloping topline leading to high tailset. Cat like feet. Good size of teeth. Clean skull, good size of nostrils. Head needs time to develop. BPD

2nd McDonald Yeteb Totally Charming Another Puppy with good bone and substance. Crested neck leading to firm sloping topline. Nicely angulated back and front. Padded muzzle with good lip placement. Excellent wide nostrils. Inquisitive boxer expression.
