

Northern Boxer Club - 10.10.10

Special Puppy Event:

Sp PD 8-10 months 1. Rushton's Davnette Christmas Issue. Well-grown masculine b/w with attractive well-balanced outline. Good front & rear angulations, excellent substance & good feet. Strong arched neck into strong flat back. Good head with correct muzzle to skull ratio & lively expression. Shown in excellent condition. Once settled, he moved well for his handler.

Sp PD 10 - 12 months 1. Fielding's Newlaithe Fast 'n' Furious. Compact r/w with lovely tight gleaming jacket. Good angles, moved extremely well going & coming. Typical head with lovely chunky muzzle, dark eyes, good clean neck, good earset, tight feet. Would prefer cleaner skull.

Sp PB 6 - 8 months 1. Drinkwater's Sulez Sierra. Quality tall dark b/w girl with super substance, elegant attractive body lines & bags of scope. Good height of foreleg, long clean neck, tight cat feet. Parallel front, brisket to elbow, nicely angulated. Pretty feminine head with good rise of skull & liquid dark eyes. Moved and showed very well for one so young. **BP in SPE.**

Sp PB 8 - 10 months 1. Jones' Kevanor Anastasia. Gorgeous compact dark b/w with lovely balanced outline & good bone. Good forechest with very good shoulder layback & turn of stifle. Good topline, crested neck & tight feet. Loved her clean classic head with boxy muzzle & dark well-shaped expressive eyes. Happy puppy who moved as one with her handler. Splitting hairs here for BPB in SPE, I'm sure they both have bright futures.
